Company Overview

Myles Stubblefield is the founder of BFLO Worm Works, whose mission is to **demonstrate kindness to the Earth and community**. The company turns **organic streams (waste) into nutrient-rich soil conditioner or fertilizer** to safeguard our soils and the Earth.

Myles is a **Army veteran** (combat medic 68W). Selfless service and personal courage remain his North Star and guidelines to life. **Service to animals, community and the environment** is where Myles had found the most authentic peace and happiness within.

NAICS : 3253
